Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State. It is especially valuable as an advertising medium.  
THE DAILY AND WEEKLY JOURNAL  
Have a circulation larger than that of any other journal of Nevada, excepting those in the Comstock.

FARES AND FREIGHTS.

This Legislature is giving the subject of fares and freights more attention than any of its predecessors, and it has gone to work with so much vim as to lead us to believe that the subject will be thoroughly investigated and honestly dealt with. It is understood that the various companies are engaged complying with the request of the Legislature to furnish a schedule of the fares and freights charged. When these are presented there will be a chance to form an intelligent opinion regarding what rates should be allowed. We believe there is no disposition to "cinch" the railroads, but there is a feeling that '49 prices shall not be charged. When we come to consider that ox teams can compete with some of our railroads it looks as though the present railroad rates were too high. Flour can be carried from Elko to Eureka cheaper by team than by railroad, and during the past Summer teams have carried freight from Reno to Virginia in opposition to the railroad. The Eureka and Palisade road charges as high as the full limit allowed by law—20 cents per ton per mile for freight. Its fares are about 9 cents per mile. The Central Pacific average for fares in this State is 6 1/2 cents per mile, and about 7 cents per ton for freight. On the V. & T. the fare is from 6 to 10 cents per mile, and as high as 15 cents for freight. We trust the Legislature while doing justice to the railroad companies, will see that justice is done to the people.

BOARD OF EQUALIZATION.

Senator Cresswell's bill to create a State Board of Equalization has been favorably considered in Committee of the whole of the Senate, and will certainly pass that body on Monday. This bill is intended to secure a fair assessment of railroad property belonging to the Central Pacific and Virginia and Truckee Railroads. Under the system now in force roadbeds are assessed at from \$6,000 to \$11,500 per mile. Under the bill before the Legislature it is believed the railroads will be compelled to pay a uniform tax on at least \$12,000 per mile. That is a good deal nearer the correct figure than the present assessment, and we hope the bill will become a law.

The House Committee of Chinese Immigration are of the opinion that a law of Congress, made in pursuance of the Constitution, is as binding and authoritative as a treaty, "and if last enacted controls and contravenes treaty." This is undoubtedly good international law; and a common sense view of the case. To suppose otherwise would be to confer authority on the treaty making power that is clearly within the province of the law makers. Congress may, therefore, treat the question of Chinese immigration without reference to the Burlingame treaty.

Dr. Rubio, the noted Italian Lieutenant of the Seventh Cavalry, and who was always hostile to General Custer, recently expressed the opinion that Major Reno made a fatal mistake when he retreated from the wood, at the Custer massacre. Just a few minutes before Reno stampeded Dr. Rubio saw Custer look down on him and then disappear behind the bluffs for the lower village. He says Custer must have calculated that Reno would maintain his position, and, resting under the supposition, made the final charge.

Several monster trout have lately been caught in Tahoe and shipped via Truckee to San Francisco. One weighing twenty-seven pounds was sent to Henry Williams, whose son was accidentally injured at the Lake last Fourth of July by a discharge of fireworks. Another trout weighed eighteen pounds and numbers of them weighed from ten to twelve pounds. They were caught near McKinney's.

THE INSANE ASYLUM PROJECT.

It has cost Nevada over \$300,000 for the care of its insane in California. Had they been kept at home the amount paid out to Sheriffs and for transportation would have been saved. That sum would provide an Asylum

system Nevada is paying out \$45,000 per year. We have 114 patients, for which we are paying \$114 per day. For a year it amounts to \$41,610. To this is to be added the cost to the State of transportation to Stockton. Now is the time, if ever, for Nevada to keep her own insane. By so doing, we believe a saving could be made. Even if it costs more, it is better to keep them at home than abroad. The money raised from the taxpayers of this State should be expended at home, and not paid out to enrich the citizens of another State. If kept at home this would be done; it kept at home friends and relatives of patients could have an opportunity to visit them occasionally. As it now is it costs a large sum to go below, and it is a great imposition upon many. It is the imperative duty of this Legislature to put an end to the present practice, and pass Assembly Bill No. 1, as reported from the Committee on State Institutions. One hundred and twenty-five thousand dollars ought to build a first class Asylum; no better location could be selected than on the prison grounds below Reno, where the State owns 208 acres of as good land as there is in Washoe county. The climate of Reno is milder than any other place; an abundance of pure water is assured; and there is no lack of water for irrigating purposes. Some of the patients could be employed to cultivate the land, and thereby the necessary amount of vegetables, etc., for Asylum consumption, and hay for feed of cows, etc., be grown with but little expense. In this connection the Carson Tribune very appropriately remarks:

The Assembly Committee on State Institutions has reported favorably on the bill to provide for the insane of the State. The bill locates the asylum at Reno, on the "Coliseum" grounds (wherever they may be), and appropriates \$125,000 for the purpose of erecting a building that shall accommodate 200 patients. We are not where the asylum is located, providing always that a pleasant site is obtained, and know of no more agreeable or healthy town than Reno in the State, and it is situated with regard to railway privileges and having the finest river in the State running through it, that the Tribune has always claimed it the proper location for the Insane Asylum. What is meant by the "Coliseum" has not yet transpired, but if the "Bradley folly" is dubbed by that title, it just suits our often expressed views. It is to be hoped that our legislators will give all the aid in their power to ensure the passage of this bill, for an asylum is an actual necessity, besides which the State of Nevada would save in four years all the cost of the building proposed. Poor people might have a chance once in a while to visit their afflicted friends, and especially so now that the Legislature is determined on reducing the rates of fare on the railroads within our State. Heretofore committing a friend to the asylum at Woodbridge has been equivalent to sending her or him away forever, but bring the asylum 250 miles nearer, reduce fare on railroads, and once in a while the heart of the poor insane friend may be gladdened with the smile and kind word of a beloved one. There has been talk enough about the erection of an asylum—the taxpayers of Nevada look for work in this regard, for the passage of the bill is of as much consequence to the people in general as any measure that may come before the Legislature during the session.

SHARON TO THE FRONT.

On Friday Senator Sharon presented to the United States Senate the resolutions of the Nevada Legislature in favor of the Reagan bill. Sharon said:

The evils complained of have existed for a long time. The people have a right to be protected. As the Government had subsidized this road by their money and land, Congress should see that the people are not imposed upon. In other words the creature should not be allowed to rise above the creator.

It is only through Congress that we can expect help from the discrimination so much complained of. Our own Legislature can stop it to and from points in Nevada; the through business can only be regulated by Congress. This Reagan bill hits the nail on the head.

OUR FOUR PER CENTS.

The extraordinary rapidity with which the four per cent. bonds are being taken up proves 't is one of the most popular loans ever known in the financial history of the world. Secretary Sherman has made himself a great name by reason of it.

OUR WASHINGTON LETTER.

WASHINGTON, Jan. 16, 1879.  
The almost unparalleled capacity for lying and perjury shown by the put-house politicians of Louisiana who have been thrown to the surface by the political complications in that unhappy State, has taught us to ac-

tion of caution that is of itself a challenge of their veracity. This, with the demand for fair play inherent in every honest mind, has led to a suspension of judgment in the matter of the accusations made and implied by St. Martin in his affidavit that Secretary Sherman furnished the Potter Committee, against every Democratic member of the sub-committee which that eminent reformer sent to NEW ORLEANS.

And against Tilden's confidential agents that accompanied it. But if the specific charges of subordination of perjury and the corrupt use of money alleged against Chairman Stenger and Tilden's henchmen, and charges more or less circumstantially against the other Bourbon members can be substantiated their early and permanent retirement from politics is assured, and their incarceration in the penitentiary would seem demonstrated by every consideration of justice and good government. The sum and substance of the matter is that St. Martin was appointed Deputy Sergeant at Arms of the sub-committee because he was endorsed by the infamous Weber as just the person needed to aid in suppressing every scrap of testimony inimical to the cause of the great reformer, Tilden. Various forms of intimidation, the promise of preferment and the use of money were successful in inducing some of the Republican witnesses to recant and deny the truth of the testimony previously given. The sub-pennas made out for those who, it was feared, would prove superior to any or all of these temptations to turn traitor, were returned endorsed "not found." It is evident that somebody has earned the right to a long term of penal servitude, and the appearance of this paper indicates that some of our "Statesmen" have sounded the lowermost depths of partisan infamy. The public should be chiefly concerned in ascertaining just who they are, and to seal the betrayal of its confidence involved with such an impress of its disapprobation and loathing as will be remembered to the end of the century. The stampede of the

CHEYENNE PRISONERS.

—For that was what some of them really were, on their way to be delivered up to the Kansas authorities for the crimes committed in those States during their last Summer's raid—has brought the whole Indian problem up again for discussion. As is usual under similar circumstances the severity of our criticisms on their custodians is about in proportion to our lack of accurate information in the premises. Whether this episode will appear most discreditable to the Military or Indian Bureau and thus add force to the blows that each are constantly aiming at the other, should be of secondary consideration with the Administration which is confronted with the problem of devising some more equitable system of Indian management, than that which has furnished our savage wards with precedents for every disregard of pledges of which they have ever been guilty, and ample excuse in the swindling and starvation to which they have been subjected, for the occasional marauding raids. We have now arrived at the juncture in our administration of Indian affairs where the Government can no longer justify itself in adhering to the wretched policy of the past; and it would seem the plainest dictate of common sense for it at once to end this business of a divided responsibility between two arms of the service so hostile as to preclude any hope of co-operation to benefit the unhappy subject between their two fires. The vital importance of the subject leads me to supplement what I have already said relative to

THE DECAT  
Of our South American trade with the statistics below, showing the insignificant part we take in furnishing Brazil with products that we could supply much cheaper than our European competitors, but for the Government aid they receive while our merchants have not had even the moral support of the Government, let alone its active co-operation. The following figures show the amount of general imports and exports of Brazil from 1870-71 to 1875-76:

Imports.....	\$171,370,879 50
Exports.....	\$171,370,879 50
During that time the imports of the United States from Brazil amounted to.....	274,148 00 00
And the exports of the United States to Brazil amounted to.....	49,868,555 00

The foregoing statement shows the mere nothingness of United States exports to Brazil, while the imports from that country indicate that we are the purchasers of more than one-half of her entire exports. Instead of paying for the same in products of our own, we are compelled to send our gold coin to Europe in payment

gold the supplies of Brazil are purchased, every article of which could and should go from our own country, and be of our own production. And why is this? Simply because of the superior commercial and postal facilities furnished by the European governments. There are at the present time nine regularly established steamship lines between Europe and South America, and all are receiving compensation under long contracts for carrying the mails, amounting to five or six million dollars annually from each government, while the trade of the United States until last year had no direct sea communication, and the new line now in operation, and which has developed a good deal of valuable trade, has not the aid even of a postal contract from our Government. A late report contains extracts of Brazilian trade statistics, showing the percentage of imports from and exports to other countries, as follows:

	Imp.	Exp.
Germany.....	4.37	3.90
France.....	19.49	13.48
Great Britain.....	52.47	45.30
Portugal.....	5.01	6.74

And while the Brazilian trade with Europe has been all the time increasing, that with the United States had suffered in proportion until the establishment of the American line last year.

Let us see what articles Brazil imports, and what proportion is derived from the United States. Among the imports for one year were the following:

	Total.	From U. S.
Beets and shoes.....	1,974,979	2,877
Cold and other fish.....	1,714,709	71,929
Butter.....	2,116,414	13,416
Cheese.....	635,481	1,074
Flour.....	4,267,841	2,890,173
Straw hats.....	606,398	3,207
Cash.....	5,536,415	197,681
Earthenware.....	1,047,134	65
Iron and steel.....	981,477	522
Iron and steel rails.....	2,615,459	5,848

Thus of the products and manufactures which we can supply most cheaply and plentifully, Brazil buys most largely in Europe, simply because of the great superiority of commercial facilities.

It is generally felt here that the President and Secretary Sherman are surely inviting defeat by urging the confirmation of the New York Custom House officials, when it would imply a censure of the officers displaced and against whom no charges could be sustained.

LOGAN.  
The rise of wages paid to farm laborers in England since the thirteenth century forms a curious study, and denotes progress of a certain kind. Then the wages were equal to 50 cents per week in our present currency. It has now slowly advanced to \$3.75 per week, the present average. A bushel of wheat in the thirteenth century would pay for eight and a half days' work. Now a laborer gets a bushel of wheat for two and a half days' work. In six centuries the price of meat in England has advanced from 6 cents to about 14 cents a pound.

The statement of the Bank of California, just published, shows the assets to be as follows: Cash in the bank \$1,510,491 61; in Virginia City, \$244,558 82 Total \$1,755,050 43. The total assets are \$1,717,826 45. The capital stock is \$5,000,000, and there is due depositors in Virginia City \$423,938 50, and in San Francisco, \$4,750,519 33.

The annual report of the Librarian of Congress states that 17,556 volumes have been added during the past year to the miscellaneous library; 3,852 to the law library; 11,559 pamphlets, and 3,244 maps. The entire Congressional Library now numbers 352,637 volumes, and about 120,000 pamphlets.

REPUBLICAN OUTLOOK FOR 1880.

Views of a Prominent Republican.  
[New York Herald.]  
"If the Republican party had a leader," said a very prominent Republican here the other day in conversation, "it might regard itself as certain of victory in 1880. But it should be a leader who would lead

backward. The notion that General Grant is the best man for the party is absurd. His nomination would signify to the country simply that the party does not mean to move forward, that it has nothing to offer; that in fact it is like the Western quack doctor, who was unable to cure any disease except fits, and who, when he was called to treat a fever patient, insisted on throwing him into convulsions as the first step toward curing him of fever. This is so clear to me that, unless the Republican party means to go out of business, I have no idea that it will nominate Grant next year.

A LEADER WANTED.  
"Talk about General Grant would even now drop at once if the party could hear the voice of a sensible leader, but it is just now like the Democratic party, in a state of great demoralization, and it has one fault which the Democrats have not—it never promotes its prominent men. In this it is the old whig party over again, which refused the Presidency to Webster just as the Republicans refused it to Seward. To day every natural leader of the party knows that he has against him all the rest, and all are so busy in preventing the rise of their rivals that they find their own fortunes blocked. They can all spoil a horse, but which of them can make a spoon."

AN OPPORTUNITY.  
"And yet a party without leaders would seem to offer a tempting opportunity to a man capable of leadership," suggested your correspondent.  
"That is very true," was the reply, "but he would have an ugly fight on his hands, which not everybody cares for. What is wanted is that the party shall once more speak to the people. It has become a machine, an army, a very powerful one, I grant you; but it has lost the habit of communicating with the people at large, and it is now depending for its success, not on the value or popularity of its ideas, but on the blunders of its opponents."

THE HAYES POLICY.

The prominent Republicans, with few timid exceptions, are all at loggerheads with their administration. They spend their strength, in so far as they can, preventing the President from carrying into effect his policy, and yet that policy has firm possession of the popular heart, and if the President to-day is not the most popular man in the country it is because, hampered by hostile party magnates, he has not been able to give full effect to the intentions with which he began. If the party had in 1877 cordially adopted the policy announced in the inaugural Message, and supported the President in making it effective, it would to-day have a hold on the popular mind which would enable it to count on a succession of terms, because ideas which the President announced, and which make up what is called his policy, are believed in by the people. Wherever they have fallen into doubtful acceptance or contempt it is only because he has not been allowed to carry them into practice."

GRANT AND THE OLD PLATFORM.

"What is remarkable to me," continued this prominent Republican, "is to see that men undoubtedly ambitious for the Presidency hesitate to act upon these facts. If the party is to adhere to its old platform, and, as is commonly said, go to the country next year with sound money and the Southern question on its banners, it does not require a wise man to see that General Grant must have the nomination. On that platform he is stronger than Cushing or Blaine, or Sherman or Washburne, or anybody else. Hence no one need doubt the rumors which have been circulating that the New York and Maine Senators have withdrawn from the contest. They are clear headed men, and see well enough that if there is to be no change in the party's policy Grant follows as logically as twice two makes four. But with a new policy, such as it ought to present adequate to the wants and the situation of the country, Grant is impossible, and the man who placed himself at the head of this new policy would naturally be nominated. See what an opportunity is presented. The President is not a candidate for re-election, and the man who should displace Grant would strike down at the same time all his other rivals, for they are all in the same boat with Grant."

This was the end of a long conversation with a prominent Republican, who would undoubtedly like to lead his party into new paths, but who, like all his rivals, suffers. "I dare not wait upon I would."

FITZ HUGH LUDLOW, in his narrative of travel in "the Heart of the Continent," tells of an eccentric genius who improved on the old yarn to the effect that "the weather would have been colder if the thermometer had been longer," by saying he had been where "it was so cold that the thermometer got down off the nail."

A MAN from Honey Lake saw a railroad train for the first time in his life, the other day, at Reno. In speaking of the wonder to a friend, he said: "The forward thing a couple of coughs, and then the whole string of 'em got up and started right off."—Virginia Enterprise.

QUEEN VICTORIA ON HER DAUGHTER'S DEATH.

[From the London Gazette.]  
The following letter is from the Queen:  
OSBORNE, December 26.—The Queen is anxious to take the earliest opportunity of expressing publicly her heartfelt thanks for the universal and most touching sympathy shown

and faithful subjects on the present occasion, when it has pleased God to call away from this world her dearly beloved daughter, the Princess Alice, Grand-Duchess of Hesse.

Overwhelmed with grief at the loss of a dear child, who was a bright example of loving tenderness, courageous devotion, and self-sacrifice to duty, it is most soothing to the Queen's feelings to see how entirely her grief is shared by her people. The Queen's deeply afflicted son-in-law, the Grand Duke of Hesse, is also anxious to make known his sincere gratitude for the kind feelings expressed toward himself and his dear children in their terrible bereavement, and his gratification at the appreciation shown by the people of England of the noble and endearing qualities of her whom all now mourn.

Seventeen years ago, at this very time, when a similar bereavement crushed the Queen's happiness, and this beloved and lamented daughter was her great comfort and support, the nation evinced the same touching sympathy, as well as when, in December, 1871, the Prince of Wales was at the point of death.

Such an exhibition of true and tender feelings will ever remain engraven on the Queen's heart, and is the more to be valued at this moment of great distress in the country, which no one more deeply deplores than the Queen herself.

## International Hotel.

Attention is directed to the advertisement of this well known hotel, which appears in another part of this paper. The new proprietor, Mr. Jas. Donalds, has had everything fixed in the best possible order, and will guarantee satisfaction in every particular. Remember the place, corner Commercial Row and Centre street.

## Madame Rentz's Minstrels.

To-morrow evening the Academy of Music will doubtless be filled to its utmost capacity to witness the entertainment given by Madame Rentz's Minstrels. The reputation of this company has preceded it, and this, together with the large number of stars, (see advertisement) will cause all to turn out.

## Homographic Chart.

On the first page of today's JOURNAL will be found a valuable chart. It contains in a nutshell all the important items of interest of every State and Legislative officer from United States Senator to Page. Cut it out and preserve it for reference.

## Methodist Episcopal Service.

Rev. C. McKelvey will preach at the Baptist Church, to day at 11 A. M. and 7 P. M. Sabbath School at the same place at 12 P. M.

The brilliant young lecturer Hugh Mohan, will deliver his famous lecture at the Opera House in Carson to-morrow night, at the request of many prominent citizens and members of the Legislature. We hope Mr. Mohan will favor Reno at some time in the near future.

THE JOURNAL returns thanks to Mr. Benjamin Stern, for a copy of his splendidly gotten up homographic chart of the present State officials, members of the Legislature and attaches.

JOHN SHERMAN, arrested on a charge of shooting at Joe King, has waived examination and was bound over to appear before the next Grand Jury in the sum of \$500.

## Methodist Church Improvements.

When they get the church fixed according to the programme that has been laid out, the people will not be able to recognize it, or hardly to realize that such a transformation could be possible. The paper being put on is of a rich, beautiful design. The tints are delicate, and stand out in perfect harmony. The paneling adds much to the effect. Mr. T. F. Laycock is the designer of the work, and is personally supervising it. The orchestra has been put behind the minister in an addition, and the corner where it was formerly will be so much more room for the congregation. The rostrum has been raised and enlarged. A new carpet has been purchased and will be put down throughout the entire church. The window frames will be stained walnut, and will contrast well with the cream colored paper. The seats are to be repainted, and several other improvements added, so that when the church is again ready for occupancy it will have been transformed into a neat, cozy house of worship. It will probably be another Sunday yet before it will be ready.

## A Wrong Impression.

Our item of yesterday about "That Ditch Contract," seems to have created a wrong impression among several of our readers. The idea intended to be conveyed was that the ground was very hard, but we did not desire to question the ability or willingness of the Company finishing their contract, but distinctly stated that they expected to hurry the work through by contract time and make money at it. As regards the financial standing of the China Co. we are assured it is of the best, and that they have an abundance of means to carry this ditch and several more of the same magnitude to a completion. This being the case there is no cause for alarm, but on the contrary, all have every reason to rest perfectly contented with the work and its prospects. When completed the ditch will be a valuable property, and will be the means of reducing much land now inaccessible to water. The Truckee and Steamboat Springs Canal Co. have a bright future before them.

## Weather Notes.

Who could write yesterday's weather item. It was a little of everything and not much of anything. First one, then the next, only to be crowded out by the third change. The clerk of the weather was evidently breaking in a new hand to the business and allowing him to practice.

THIRTY SEVEN bars of bullion came down last night, ten from Ophir.

## MINING NOTES.

The Utah will start its big engine in ten days.

California is yielding 340 tons of ore per day.

Sinking at the C & C. shaft will be resumed next week.

The Regna shaft has been drained and sinking there resumed.

The shaft of the North Con. Virginia is 15 feet below the 1600 level.

Julia still has more and hotter water than it knows what to do with.

Consolidated Imperial is stationing at the 2600 level, preparatory to drifting along the ore vein.

Sierra Nevada has ore of low grade in the bottom of the incline, and better looking rock in the face of the drift north, 2200 level.

The east drift on the 600 level of the Lady Bryan is still advancing in a fine body of quartz carrying spots of ore.

At the Forman shaft they are sinking at the rate of 30 feet per week. The new air compressor will start up the first of next week, when better progress will be made.

On the 2100 level of the Savage the south drift from the bottom of the north winze is steadily advancing, with the face in a fine, favorable character of quartz and vein matter.

Drifts have now been extended into to Benton ground on every level from the 1200 level down, but no crosscuts have been made on any of the levels.

Ophir is turning out 80 tons of ore per day, and is emptying the incline so as to be ready for water, should it be encountered to the northeast on the 2200 level.

Consolidated Virginia is yielding 100 tons of ore daily, mostly from the 1400 and 1500 levels. The Trench mill, at Silver City, is crushing about 80 tons per day of it.

The Southern Pacific track is now on the east slope of the Mohawk Summit, 58 miles east of Yuma. The grade is completed well ahead.

## LATE NEWS.

In Paris traffic is almost suspended by the snow.

The President has signed the Ar-rears of Pensions bill.

It is positively stated that Senator Christiancy will on the 21 of March next resign, and be nominated Minister to Peru, and that ex-Secretary Chandler will succeed him and be on hand to be sworn in.

A New England Senator said that doubtless an extra session of Congress would be necessary, on account of the probable protracted debate over the confirmation of the New York nominations.

It is reported that the splendid marble building on Broadway, corner of Chambers, long known as Stewart's palace, and which has just been vacated, will be turned into a hotel and operated by the Stewart estate.

Governor Hampton has received since his accident so many letters of sympathy that he is unable to reply to them separately, and has thanked the writers informally through the newspapers.

Mr. Hyde, managing editor of the St. Louis Republican, was run over by a railroad train on the Missouri Pacific road near Bonnet's Mills, about seventeen miles east of Jefferson City Thursday morning and instantly killed.

On Thursday night a well-to-do farmer named P. P. Hall, residing near a village named Wassonville, Iowa, rose in the night, and with an ax, split open the head of his daughter Emma, aged 18, and immediately thereafter shot himself, with fatal effect. No cause is known for the act, as Hall was unusually fond of his family.

The Examining Committee of the Stock Exchange, New York, have voted to place mining stocks upon their list. They require \$50 for expenses and a sworn statement of the condition of the company making the application, and to send at its own expense an expert named by the Exchange to examine the mine and other property of the company.

Ida Lewis has been appointed Time Rock lighthouse keeper in Newport Harbor, with a salary of \$750, vice her mother, resigned. Secretary Sherman's letter said: "This appointment is conferred upon you as a mark of my appreciation for your noble and heroic efforts in saving human lives."

The President has received a memorial signed by all the members of the California State Constitutional Convention asking of the President or the treaty making power such actions as will effectually prevent the further immigration of Chinese into American ports of the Pacific coast.

The President has already directed the Secretary of State to open negotiations with the Chinese Government toward a modification of the Burlingame treaty. He will not send any message to Congress on the subject until after the result of these negotiations is known.

South Carolina Republicans in Washington report a consultation between Don Cameron, Patterson and Butler of South Carolina, regarding Corbin's contest with Butler. Afterward Patterson was reported solid for Butler, and if Cameron got anything out of the consultation it was support for Secretary Sherman in the matter of New York nominations.

The Senate Judiciary Committee have reported favorably Christiancy's bill to carry into operation the recent decision of the Supreme Court affirming the constitutionality of the anti-polygamy law of 1862, and an attempt will be made to pass it this session. The bill is not materially changed from the original form.

British and American shipmasters are discussing the question whether the Chinese are likely to own and run steamers to America and England. Their rapid acquisition of the carrying trade in Chinese waters leads prominent merchants to believe that only low rates now prevents the Chinese from entering into competition with foreigners in ocean carrying. In the event of a rise the Mongolians are likely to enter the market.

The will of Bayard Taylor has just been admitted to probate in Chester county Pa. He names John J. Pinkerton and Charles B. Lamhorn as executors. He bequeaths the sword of Schiller, presented to him by William Makepeace Thackeray, to be deposited in Schiller's house in Germany among other relics of the poet. He leaves his unpublished writings to his wife and George H. Baker.

THE Police Commission of New York estimates that two hundred lives are lost annually on the city's river front. Half of this number are estimated to meet death by accident, and the other half by suicides and murder. This is a frightful record.

The name must have been misspelled in telegraphing it East, for the New York Tribune says: "It is pleasant to be assured that Hell-house, of Nevada, has not been elected to the United States Senate. One House of that kind is enough in Washington."

EDWIN EWALD, the "school question broker," was brought before Judge Dwinelle of the Fifteenth District Court San Francisco, Friday evening on a writ of habeas corpus, and after a hearing was discharged from custody.

It is reported that Senator David Davis is about to add weight to the Republican party; no other Senator can equal him on the platform (scales).

The manager of La Lanterne has been sentenced to three months' imprisonment and to pay a fine of 2,000 francs for libeling Government officials.

THE San Francisco Stock Board Friday declared a dividend of \$100 per seat, payable immediately.

THE office of State Printer should never have been abolished. It is a reflection on Nevada enterprise to have a large portion of our State printing done in another State.—Sentinel.

TALK IS CHEAP—And so are fine clothing, boots, shoes, and gentlemen's and boys' fine furnishing goods, if you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. I do not boast when I say that I defy competition in prices in anything in my line. Besides this I have only one price. I have no preferred customers. Everybody is treated alike at my establishment. My stock is the largest and most complete ever offered in any part of this State. Everything I have is new. No old, musty and out-of-date goods can be found on my shelves. I receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of my prices and examine my stock before going into those humbugging, cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No store-keeper sells goods for the fun of the thing. I make a profit on everything I sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. I particularly call attention to my full stock of fancy underwear such as is kept nowhere else in Reno. This class of goods forms one of my specialties. Remember the place, The White House, No. 19, Commercial Row.

Havana seed. Both of above mentioned crops  
are much superior to anything grown since then  
and Messrs. L. B. & Co. had the forethought and  
capital to lay in a sufficient supply to last them  
until the '77 crops will be sufficiently cured to  
be worked to advantage, as the latter crop is now  
it is entirely unfit to be worked for at least 8  
months to come as it tastes bitter, cools some  
what and has a copper color. We have enough  
of this old weed on hand to last us until Novem-
